

In this first assignment you are going to build a web page.

All requirements can be found on this page: mockup, color scheme, fonts, ... The rest is up to you.

Also, the tools you use are free of choice. We encourage you to publish your work on github and add it to the list on our wiki page. Don't forget to add a README to have everyone up and running quickly.

Have fun!

Primary color #3f51b5	Accent color #03a9f4
Light primary color #c5cae9	Primary text #333
Text / Icons #fff	Secondary text #727272
	Divider color #B6B6B6

Droid Sans Droid Serif
